## WORK EXPERIENCE

### Front End Developer (React.js) Accenture Solutions Pvt. Ltd.

03/2023 - Present

Gurugram

Project - Responsible AI

- Reduced loading time by **75%** (from 11s to 2.8s) and JS bundle size by **87%** (from 4.8 MB to 620 KB) through code splitting and lazy loading.
- Developed reusable components for improved code maintainability and faster feature development leading **30%** increase in productivity.
- Analyzed and refactored large JSX files containing **2-3k lines of code** into smaller, manageable, and logical components.
- **Reduced Debugging Time:** Code refactoring led to a **20% reduction in debugging time**, enhancing overall team efficiency.
- Developed and maintained Central State Management through Redux store.
- Reduced redundancy and improved development efficiency by enabling dynamic rendering of form states.

### Front End Developer (React.js) Accenture Solutions Pvt. Ltd.

08/2021 - 02/2023

Gurugram

Project - Talent HR

- Developed a user-friendly interface for uploading and ranking resumes.
- Created **5+** dynamic forms using React Hook Form, reducing validation errors by **25%**.
- Built an admin panel for managing **20+** users, streamlining access control by **35%**.
- Implemented best practices in component design to ensure minimal package size.
- Collaborated with backend developers to integrate APIs, ensuring seamless data flow.

## EDUCATION

### B.Tech in Information Technology Amity University, Noida

2021

## SKILLS

React.js Redux Redux Toolkit Redux Saga

React Router Apex Charts TanStack Query

React Hook Form Yup MUI Tailwind CSS

CSS Modules Bootstrap HTML5 CSS3

JavaScript (ES6+) State management

RESTful APIs Responsive design Azure

GitHub Performance Optimization

## PERSONAL PROJECTS

<https://finmate.netlify.app>

- React app to enable users to manage budgets, expenses, and EMIs with an intuitive UI.
- Full-stack solution with **Node.js and MongoDB**, supporting real-time data updates and seamless user experience.
- Implemented JWT-based authentication.

<https://ak-montra.netlify.app>

- A similar finance app leveraging **React and Supabase** for a serverless backend with real-time data sync and simplified authentication.

## ACHIEVEMENTS

### Building Scalable and Performant UI Components

#### Reusability & Scalability

Built a **library of reusable UI components** (tables, forms, modals) to ensure consistency and speed up development across modules.

#### Reliability & Error Handling

Implemented a **centralized error boundary** in React to catch runtime errors and improve app stability.
